Your supply partner

Armadura was founded in 2020 in Kotor as a service for espresso machines. It was then that we learned what we still build on today: business rests on trust, and in hard times you see who your true partner is.

Since 2022 we have been importing and distributing products for the hospitality industry. We are the exclusive importer of **Caffè Vescovi** espresso coffee from Padua and **Central Carta** paper products from Tuscany, and alongside them we offer packaging, hygiene and cleaning products. Our goal is simple: that your venue needs as few suppliers as possible, and that you find almost everything you need in one place.

We believe that true success is built through partnership. That is why we build honest, friendly, long-term relationships. Our number is always available, and we solve problems together: quickly, reliably and with the know-how that makes the difference. We don't offer just products, but support you can count on at every stage of your business.

01

One supplier

Whether you need coffee, sugar, consumables, food packaging, paper products or cleaning supplies: one call takes care of everything. One order, one delivery, one invoice. Fewer suppliers means fewer calls and less paperwork, and more time for the satisfaction of every one of your guests.

02

Italian brands, no middlemen

Direct import from Italy, with no middlemen and constant product availability. We import Vescovi and Central Carta directly from the manufacturers, as the exclusive importer for Montenegro. That is why the goods are always available, with no extra links in the chain.

03

Espresso machine on loan

With regular purchases of Vescovi coffee, you get the machine on loan, with no big upfront investment. We tailor the terms to your venue's consumption, so the arrangement suits both a small café and a large hotel. You take care of your guests, and we make sure every cup is just as it should be.

04

We take care of your brand

Sugar sachets, honey, biscuits, spoons, toothpicks, wet wipes, napkins, pizza boxes and delivery bags can all carry your logo. Every sugar sachet served with an espresso and every delivery in a bag with your logo reminds guests of you even after they leave. Send us an inquiry and we will prepare an offer with a complete solution.

Caffè Vescovi

Padua, since 1927. An Italian espresso tradition that never rushes — and you can taste it in every cup.

The story begins in 1927 in a small shop on Vicolo Dotto, in the heart of Padua. Gino Vescovi, who had worked as a labourer in France from the age of twelve, came home with one idea — to create the perfect coffee blend. By the early 1930s his **Grani d'Oro** blend had won the Grand Prix and a gold medal at the International Exhibition in London.

Almost a hundred years later the company is run by his successors, and the rule is still the same: good coffee is never rushed. Vescovi roasts slowly, for 15 to 18 minutes, and then lets the coffee rest in silos for four days until its full aroma develops. Only then does it go into the bag — and into your cup.

1927

Founded in Padua

Almost a century of the same family philosophy.

Slow roasting

For a rounded taste without bitterness.

Why Vescovi in your venue FOR HOSPITALITY

01

The same taste, every day

The blends are recalibrated after every harvest — so the espresso in August is the same as in January.

02

High-grown Arabica

Beans grown above 1,000 metres, bought directly from plantations in the Americas, Africa and Asia.

03

Palate, not just machines

Every batch is judged by experienced tasters — quality is checked by taste, not just by numbers.

Central Carta

Tuscany, since 1990. A family paper company that controls every step — from the parent reel to the napkin on your table.

Central Carta was founded in 1990 in Badia Pozzeveri near Altopascio, in the Tuscan province of Lucca, as a family paper-converting workshop. Today it is run by the second generation of the family, and the workshop has grown into an integrated paper group: by taking over the historic Lucca paper mill **ICF Industria Cartaria**, Central Carta now produces the very parent reels its products are made from.

For a hospitality business this means one thing — paper that performs the same in every pack. The professional **ClassEur** line is made precisely for high-traffic venues: napkins, hand towels, toilet paper and dispensers that last the whole season.
